We also need to include the next steps in the fact sheet. For example, we are working with TCEQ for the state to take the lead for any longer term actions to be conducted at the site. In addition, we are evaluating enforcement options to identify and pursue potential responsible parties.

Congresswomen Lee called the RA yesterday. We need to get a status fact sheet for CES. She also mentioned a school assessment that she thought we did and wanted a copy of the report. I told Pam and Carl I was unaware of a school assessment. We need to have this by the end of today.
